Professional Summary

Software developer building custom WordPress themes, Shopify storefronts, and interactive React and Next.js websites. Combines technical SEO, performance optimization, hosting management, and AI integration to improve website delivery and customer experience. Experience also includes fintech applications, API integrations, and AWS deployment workflows.

Professional Experience

Synergi BPO | Web Developer and SEO Specialist

UAE | Remote | Full-time — May 2026 - Present

- Develop custom WordPress themes, including block themes, and responsive features for client websites.
- Build standalone interactive websites with React, Next.js, and GSAP, incorporating selected Three.js effects.
- Manage technical and on-page SEO, including indexing, sitemaps, metadata, internal linking, and Search Console monitoring.
- Improve website performance and Core Web Vitals through frontend optimization, asset loading, and caching improvements.
- Integrate AI tools into WordPress workflows and automate recurring website and SEO tasks to reduce manual work.
- Manage hosting, website releases, maintenance, QA, and reporting across client projects.

Laptops King | Shopify Growth Specialist

Lebanon | Remote | Part-time — Apr 2026 - Present

- Manage Shopify storefront development, catalog updates, app integrations, and customer experience improvements.
- Contributed to approximately 44% growth in organic clicks and 63% growth in impressions compared with the preceding three-month period.
- Supported order growth through storefront improvements, customer journey optimization, and Google Ads setup, alongside the wider paid marketing effort.
- Build custom Dawn theme features and sections with Liquid, HTML, CSS, and JavaScript to improve product presentation and navigation.
- Automate product content and bulk editing workflows using AI-assisted coding tools, reducing repetitive store maintenance.
- Improve product discovery through metafields, collection structure, and search and filter integrations; test changes across desktop and mobile.

fazeZERO | Software Developer

Dubai, UAE | Remote — Jan 2025 - Apr 2026

- Contributed to blockchain-integrated fintech applications for enterprise and banking use cases.
- Built responsive React interfaces and supported API workflows and smart contract integrations.
- Supported AWS deployment workflows using EC2, S3, and Lambda, with exposure to CI/CD and system architecture.
- Used structured project specifications and AI-assisted workflows to support software implementation.

Professional Experience Continued

CIS College | Computer Instructor

Lebanon | On-site — Feb 2025 - Apr 2026

- Taught frontend development, backend development, databases, and digital circuits to BT3 and TS1 students.
- Covered Oracle Database, MySQL, and Microsoft Access in database courses.

Sereni | Shopify Developer

London, United Kingdom | Remote — Jan 2024 - Apr 2024

- Began customizing Shopify themes with Liquid, improving store layouts, styling, and customer experience.
- Implemented tracking to monitor store performance and user behavior, working with design and marketing teams on storefront updates.

Loyabi | Shopify Developer

Lebanon | Hybrid — May 2022 - May 2024

- Managed a multi-vendor Shopify marketplace, including seller onboarding, product approvals, and order fulfillment.
- Evaluated and integrated Shopify apps to extend marketplace functionality and improve store operations.
- Improved product listings, descriptions, image alt text, and customer journeys; monitored website health with Google Analytics.
